SOFTWARE ENGINEER

I am a junior Software Engineering student with a strong interest in mobile application development, web development, and full-stack technologies.

PROFESSIONAL EXPERIENCE

Robot El Derneği

Aug 2024 - Present

Data Reporting Analyst / Intern

Collecting, analyzing, and reporting project data; analyzing feedback and preparing improvement suggestions; tracking project progress by preparing regular reports; determining how project data should be stored at Robotel Association and researching alternative learning methods for statistics that are not kept in Turkey.

Saat Teknoloji

Jul 2024 - Aug 2024

Back-end Developer / Intern

I worked on the backend development of a live streaming and program viewing platform for films, series, and TV channels, utilizing EPG correction technology. Additionally, I implemented a keyword-based search function on the platform by integrating Elasticsearch with Java Spring Boot.

PROJECTS

Online Reservation System for Restaurants | SQL, Java, JavaScript

Github

For our "Database Systems" course, we developed an online reservation system for restaurants using Java and JavaScript.

- Led a team of 4: organized meetings, delegated tasks, etc. Final grade of **93%**
- Implementing CRUD operations through SQL.

SKILLS

Programming | Java, Javascript, Python
Web&Database | HTML, CSS, MySQL
Tech | Git, VSCode, Eclipse, IntelliJ, MS Office
Language | Turkish, English (high advanced), German (advanced)

EDUCATION

TED University

2022-Present

Majors: Software Engineering
Ankara, Türkiye

Göl Anadolu High School

2019-2021

Kastamonu, Türkiye

Seven Lakes High School

2018-2019

Houston/Texas, USA

EXTRACURRICULAR ACTIVITIES

Web Team Member

Google Developers Group TEDU

Public Relations Team Member

Google Developers Group TEDU

Project and Competition Team Member
